

Xzemplar Fungicide

The Very Best for Dollar Spot. Period.

Research shows **Xzemplar** fungicide provides consistent, long-lasting protection against dollar spot, as well as other turfgrass diseases.

- >> Trial results for **Xzemplar** fungicide have shown excellent control against dollar spot at all rates and spray intervals (14-28 day) on greens and fairways. In a fairway dollar spot trial at Penn State University in 2013, **Xzemplar** fungicide on a 21-day spray interval was the top-performing treatment among 40 entries. On the final rating date, **Xzemplar** fungicide was the only treatment with no dollar spot present, while the untreated plots contained over 140 dollar spot lesions per plot.
- >> In a curative dollar spot trial on a Crenshaw Bentgrass putting green at the Pee Dee Research and Education Center of Clemson University, **Xzemplar** fungicide plots contained an average of two dollar spot lesions as compared to the untreated plots that contained over 20 lesions at 14 days after the application.
