

# Great Lakes Regional Turf Spray Program

Tees and Fairways – Cool Season

For tees, greens or fairways, superintendents trust BASF for the most effective high-quality golf solutions. Proven BASF innovations deliver superior performance in all geographical regions and climates, especially during peak stress times. With a specific protocol for each area of the country, the BASF Regional Turf Spray Program is specially designed to provide proven disease control and produce stronger roots, greater stress tolerance, higher resiliency and increased growth efficiency. The result is championship conditions, all year long.

# Great Lakes

## Michigan, Minnesota and Wisconsin

This area has a short growing season compared to the rest of the US. The chilling effect from the Great Lakes results in a long winter with heavy snow cover, which calls for an effective snow mold program. Unlike many areas, dollar spot presents a problem all summer long in this region, increasing the importance of addressing this disease early, during the growing season.

day program

| Timing   | Product   | Active Ingredient                                    | Rate/1,000 sq. ft.                      | Key Target Diseases                                   |
|----------|---|--|---|---|
| 1 May 15 | <b>Emerald</b> ® fungicide  | Boscalid   | 0.18 oz                                 | Dollar spot   |
| 2 Jul 1  | Secure + <b>Trinity</b> ® fungicide   | Fluazinam + Triconazole                              | 0.5 oz + 1.0 fl oz                      | Dollar spot, Anthracnose                              |
| 3 Aug 1  | <b>Xzemplar</b> ® fungicide   | Fluxapyroxad   | 0.26 fl oz                              | Dollar spot   |
| 4 Sep 1  | <b>Emerald</b> fungicide  | Boscalid   | 0.18 oz                                 | Dollar spot   |
| 5 Oct 1  | Chipco 26GT + Daconil   | Iprodione + Chlorothalonil                           | 3.0 oz + 3.6 oz                         | Dollar spot, Pink snow mold                           |
| 6 Oct 15 | Concert II  | Propiconazole and Chlorothalonil                     | 6.0 oz                                  | Dollar spot, Pink snow mold                           |
| 7 Nov 1  | <b>Insignia</b> ® <b>SC Intrinsic</b> ® brand fungicide + <b>Trinity</b> fungicide + Daconil + Turfcide | Pyraclostrobin + Triconazole + Chlorothalonil + PCNB | 0.7 fl oz + 1.0 fl oz + 3.6 oz + 3.0 oz | Gray snow mold, Pink snow mold, Plant health benefits |

Product timing is a suggestion only; optimize application for local weather and field conditions. Confirm active status of product registration in your state before using; not all products are registered in all states. Application Rate/1,000 sq. ft. is based on maximum label rate or range. Claims related to root strength, stress tolerance, resiliency and growth efficiency are specific to those BASF products containing pyraclostrobin, as shown.

Always read and follow label directions.
