

Southeastern US Regional Turf Spray Program

Bentgrass Greens – Cool Season

For tees, greens or fairways, superintendents trust BASF for the most effective high-quality golf solutions. Proven BASF innovations deliver superior performance in all geographical regions and climates, especially during peak stress times. With a specific protocol for each area of the country, the BASF Regional Turf Spray Program is specially designed to provide proven disease control and produce stronger roots, greater stress tolerance, higher resiliency and increased growth efficiency. The result is championship conditions, all year long.

Southeastern US Bentgrass Greens

Alabama, Georgia, Mississippi, North Carolina, South Carolina and Tennessee

This region features a mostly temperate climate but can be moist and cold in the winter and hot and humid in the summer. The wet conditions usually last a short time, the result of storms in the Gulf or Atlantic, and arctic storms from the Great Plains. In winter months, temperatures range from around freezing at night to highs in the 50s to 70s in the daytime. Summer heat often rises above 100 degrees for short periods.

■ *Holiday Spray Program*

¹ SLR = Standard Local Rate for the products shown; consult local extension recommendations in your region.

² **Lexicon Intrinsic** brand fungicide can be applied 3-4 times during any calendar year not to exceed 1.7 fl oz per 1,000 sq ft (74 fl oz per acre).

³ Subject to a BASF Recommendation under FIFRA 2(ee) for fairy ring in certain states. See www.CDMS.net for BASF Technical Information Bulletin.

Product timing is a suggestion only; optimize application for local weather and field conditions. Confirm active status of product registration in your state before using; not all products are registered in all states. Application Rate/1,000 sq. ft. is based on maximum label rate or range. Claims related to root strength, stress tolerance, resiliency and growth efficiency are specific to those BASF products containing pyraclostrobin, as shown.

Always read and follow label directions.
