

Athletic Field Management: Solutions For Weed, Disease and Insect Control

Healthy, resilient athletic fields begin with top-tier herbicides, fungicides and insecticides from BASF.

Whether you're preventing crabgrass and goosegrass or quickly targeting spurge, BASF offers broad-spectrum, pre and postemergent solutions.

For controlling patch diseases, dollar spot, leaf spot, and more, BASF offers industry-leading fungicides to keep your athletic fields performing at their best.

We also deliver excellent control of fire ants, nuisance ants and other surface feeding insect pests with BASF insecticides.

Solutions for athletic field management

Basagran® T&O

Herbicide

Packaging:
2 x 1 gal

Postemergent control of yellow and annual nutsedge and several troublesome broadleaves. These include Canada and musk thistle, ragweed, wild mustard, dayflower and several others.

Drive® XLR8

Herbicide

Packaging:
4 x 0.5 gal
2 x 2.5 gal

The standard postemergent for crabgrass control, and will also eliminate barnyardgrass, foxtail, broadleaf signalgrass, field bindweed and clover.

Finale® XL T&O

Herbicide

Packaging:
2 x 2.5 gal

Non-selective control of many annual and perennial grasses and broadleaves. It is ideal to use anywhere you desire total weed control. Can be used in combination with Pendulum AquaCap herbicide or Tower herbicide for pre and postemergent weed control.

FreeHand® 1.75G

Herbicide

Packaging:
1 x 50 lbs

Excellent granular choice for the preemergent control of many grassy, broadleaf and sedge species in warm-season turfgrass. Can provide several months of residual control.

Pendulum® AquaCap

Herbicide

Packaging:
2 x 2.5 gal,
1 x 15 gal

Preemergent control of grassy and broadleaf weeds. Applied in the spring of the year prior to weed germination, it controls crabgrass, goosegrass, foxtail, barnyardgrass, fall panicum and many other grassy weeds. Also controls numerous broadleaves such as chickweed, henbit, knotweed, spurge and others.

Pylex®

Herbicide

Packaging:
4 x 4 fl oz

Postemergent control of many annual and perennial grasses in addition to numerous broadleaf weeds. Can eliminate large unsightly weeds that overtake your athletic field. Excellent on goosegrass and crabgrass, and also effective on foxtail, barnyardgrass, Bermudagrass, Japanese stiltgrass, morninglory, oxalis and thistle.

Segment® II

Herbicide

Packaging:
2 x 2.5 gal

Postemergent control of grassy weeds in centipedegrass and fine fescue.

Tower®

Herbicide

Packaging:
2 x 2.5 gal

This shoot-inhibiting preemergent on warm- and cool-season athletic turf is highly effective for the control of yellow nutsedge and annual sedges along with numerous grassy and broadleaf weeds to include goosegrass, crabgrass, field sandbur and spurge.

Alucion® 35 WG

Insecticide

Packaging:
10 x 2.375 lbs

Fast-acting curative control on surface-feeding pests, plus a repellent barrier of protection against ants. Treats billbugs, chinch bugs, armyworms, cutworms, and sod webworms.

Siesta®

Insecticide Fire Ant Bait

Packaging:
1 x 15 lb

Fast, long-lasting control of native and imported fire ants. Best applied as broadcast treatment where foraging ants and hidden mounds receive coverage.

Insignia® SC

Intrinsic® Brand Fungicide

Packaging:
2 x 2.5 gal,
4 x 30.5 fl oz

Broad-spectrum control of over 25 turfgrass diseases with the added benefit of improved plant health including stress tolerance.

Lexicon®

Intrinsic® Brand Fungicide

Packaging:
4 x 21 fl oz

Quick knockdown and long-lasting preventive and curative reliability of disease control and plant health benefits under the toughest conditions.

Pillar® G

Intrinsic® Brand Fungicide

Packaging:
1 x 15 lbs,
1 x 30 lbs

Combines the power of Insignia SC Intrinsic brand fungicide and triticonazole in a granular formulation for easy application. Broad-spectrum disease control while providing plant health benefits.

Pillar® SC

Intrinsic® Brand Fungicide

Packaging:
4 x 43.5 fl oz

Fast-acting and powerful broad-spectrum fungicide controls 26 diseases with a one-rate label. The easy-to-spray liquid formulation delivers excellent disease control for up to 28 days on critical diseases like brown patch, dollar spot, leaf spots and large patch.

Xzemplar®

Fungicide

Packaging:
2 x 114 fl oz,
4 x 11.4 fl oz

The leading fungicide for the preventive and curative control of dollar spot with up to 28 days of residual. Also, controls other key turfgrass diseases.
