Pendulum® AquaCap herbicide

Confident preemergent control

Pendulum AquaCap herbicide offers preemergent control of grassy and broadleaf weeds in a liquid formulation for crabgrass, goosegrass, foxtail, barnyardgrass, fall panicum, chickweed, henbit, knotweed, spurge and more.

Flexible residual protection	Effective control	Challenging weeds	Broad use sites
			
Prevent weeds as they germinate, for months	Preemergent control of 45+ troublesome grassy and broadleaf weeds	Crabgrass, oxalis, henbit, spurge, sandbur, cupgrass, hop clover and burweed	Apply to turf, over-the top of ornamentals, or to bareground

BASF patented technology delivers

- AquaCap delivery of active ingredient to the weed germination zone
- Water-based formulation with virtually no odor and reduced staining potential
- Increased ease and flexibility of handling, mixing, and cleanup
- Improved storage and stability profile

Confident preemergent control

- For residential, golf course, commercial, and other non-residential turf and landscape use
- Labeled for application to warm season and cool season turf types
- Tolerance tested on over 330 ornamental varieties

Pendulum AquaCap herbicide with limited adsorption to mulch delivers a greater percentage of active ingredient to the soil surface, providing improved weed control. (RTP, 2007)

Where to use Pendulum AquaCap herbicide

- 1 Turfgrass and lawns
- 2 Ornamentals and landscape beds
- 3 Bareground and gravel

HRAC group	Active ingredient	AI load (per acre)	Rate range (per acre)	Formulation	Packaging	Key weeds controlled
3	Pendimethalin (38.7%)	1.47-2.99 lbs*	3.1-6.3 pts*	Water-based	2 x 2.5 Gal	Crabgrass, goosegrass, spurge, chickweed, henbit

* See Pendulum AquaCap label for full rate ranges which increase for bareground and non-turfgrass use sites.

Always read and follow label directions.
